**Extremely dry conditions make control difficult, Firefighter fatigue. Reburning due to needle fall in areas that were previously burned. Structures on along east line near Randall Crews Road are still threatened until mopup and line improvement is completed. Structure protection within the Okefenokee Swamp Park.**

38: Actions planned for next operational period:  
**Continue to complete control line and improve existing ones on the east and south flanks. Continue structure protection at the Okefenokee Swamp Park.**

39: For fire incidents, describe resistance to control in terms of:

- 1. Growth Potential - **High**
- 2. Difficulty of Terrain - **Medium**

40: Given the current constraints, when will the chosen management strategy succeed?  
**Sustained rain is needed to meet the incident objectives.**
